

HEALTH AND SAFETY POLICY FOR BUSH HOUSE OSTEOPATHIC PRACTICE

BHOP will undertake risk assessments annually or sooner if required.

All accidents will be reported in the Accident Book.

All near misses will be recorded in the "Near Miss Book" and may inform a Clinical Learning Log that strives to raise standards of care for patients. By working in a culture of identifying and managing potential health and safety issues rather than a culture of blame, valuable learning opportunities are optimised.

BHOP will display its current employer's liability insurance in a public area.

Annual Risk Assessments

- Accessing the building
- Safety within the practice area
- Chemicals (COSH)
- Fire
- Infection Control
- Electrical
- Osteopathic Treatment
- Data Protection
